Historical Sketch:

The Myers Community Hospital was first opened in 1900 as the Myers Hospital. The owner and chief physician was John F. Myers, MD. Its original location was in the former residence and office of his mentor, Levi M. Gaylord, MD in Sodus, N.Y. Dr. Myers was a native of the community and the hospital was initially staffed by two nurses and had 15 beds. Myers hospital was the only hospital between Rochester and Oswego along the southern edge of Lake Ontario. Although a private hospital, Myers hospital was opened to any qualified physician to use to treat their patients. The building was expanded in 1924 with the addition of a separate wing and also the addition of the Doctor’s son Dr. F. Linwood Myers, MD to the medical staff that same year. Dr. F. Linwood Myers assumed management of the hospital after the death of John Myers on December 25, 1942. The hospital continued to grow to meet the medical needs of the Northern Wayne County community. In 1955, Dr. Myers sold the hospital to a corporation formed by the citizens of Northern Wayne County and the name was changed to Myers Community Hospital. Dr. Myers remained as Chief of surgery for a short period of time after the sale.
Myers Community Hospital joined with Newark-Wayne Community hospital to form ViaHealth of Wayne, an affiliate of Rochester General Hospital in 1998. In 2002, the hospital closed due to conditions of the rapidly changing medical industry and the demands of a changing population centers in Wayne County.

**Record Group Descriptions:**

**RG-01 Board of Directors**

**RG-02 Hospital Administration**

Boxes 24-31, Arranged in sub-series of Administrator/President/CEO, (consisting of Correspondence, Manager’s Minutes (1989), Standing Administration Instructions and misc. Legal documents) and records of the various Hospital Departments (Clerical)
