This Newsletter is brought to you for free and open access by RocScholar. It has been accepted for inclusion in Rochester Regional Health authored publications and proceedings by an authorized administrator of RocScholar. For more information, please contact Lisa.Buda@rochesterregional.org.
Werner Medical Library Liaison Program

The Werner Medical Library Liaison program partners a Librarian with specific departments and centers within RGHS. Liaison librarians serve as point-of-contact experts to help RGHS team members locate, use, and organize information. The Liaison program enhances collaboration between the library and team members. This partnership enables the library to provide resources and services that support the patient care, education, and research needs of the RGHS community.

A list of liaison appointments may be found on the library portal page. If your department is not on the list and you would like your own library liaison, please contact Elizabeth Mamo, Library Director, at 922-2403.

The Impact of Social Media on Healthcare Professionalism

Social networking sites are a popular way for physicians, nurses and allied health professionals to communicate about clinical, professional, and social topics. Social media includes blogs, podcasts, and social networking platforms such as Twitter, LinkedIn, YouTube, and Facebook to mention just a few. Social media presents opportunities as well as challenges for healthcare professionalism.

If you would like copies of any of these articles, or if you would like additional information on this or any topic, please contact any Werner Library team member.
