MEDICAL ORDERS FOR LIFE-SUSTAINING TREATMENT (MOLST)

The Medical Orders for Life-Sustaining Treatment (MOLST) Program is designed to improve the quality of care people receive at the end of their life. MOLST is New York State's Physicians Orders for Life-Sustaining Treatment (POLST) Paradigm Program. These programs are based on communication of patient wishes and documentation of medical orders and a promise by health care professionals to honor these end of life wishes.

If you would like copies of any of these articles, or if you would like further information on this topic, please contact a Library team member.

Bedside the Musical

BEDSIDE is a humorous musical play intended to celebrate the nursing profession while poking fun at the daily obstacles of practice. It is the first and only musical comedy where 1.7 ANCC contact hours may be earned by exploring the history of nursing. The musical is available for viewing at <http://bedsidemusical.com>. A CE processing fee of \$10 applies.
