## Rochester General Hospital Edition

July 2010

### HOSPITAL-ACQUIRED PRESSURE ULCERS

The rate of hospital-acquired pressure ulcers in acute care settings ranges from 7-33%. Costs to treat pressure ulcers may be as high as \$70,000 per case, and an estimated 2.5 million pressure ulcers are treated each year in US acute care facilities. If you would like copies of any of these articles, or if you would like further information on this topic, please contact any Library team member.
