URINARY TRACT INFECTIONS

Urinary tract infections occur in two out of every 100 people. Each year, 8 million to 10 million visits to doctors are for urinary tract infections. Infections of the urinary tract are common—only respiratory infections occur more often. If you would like copies of any of these articles, or if you would like further information on this topic, please contact any library staff member.

Hooton TM. Recurrent urinary tract infection in women *UpToDate,* 2005

Meyrier A. Urine sampling and culture in the diagnosis of urinary tract infection *UpToDate,* 2005

Swart WT. Uncomplicated UTIs in elderly patients: how best to treat. *Consultant.* 2004 Dec;44(14)1805-10.
